54.74	Daily	C	Direção-Geral de Reinserção e Serviços Prisionais
Update Likelihood			Reference Year
Low			2016

Methodology

This average daily cost is based on an analysis of the costs of the Santa Cruz do Bispo Prison, in the year of 2016. This analysis was undertaken by Direção-Geral de Reinserção e Serviços Prisionais.

This cost includes: direct costs at the prison level, other costs with external services (meals, health services, fuel, telecommunications, and postal services), as well as costs associated to the acquisition of medication by the S. João de Deus Prison Hospital. Finally, a 2,5 euro component was added to reflect extra health and medication costs associated to these offenders.

Because this cost was computed with data from one single prison, it must be interpreted with caution.

This value reflects a direct cost.
