Methodology

The IEFP's support measures, which includes professional training, promotion of employment and the professional integration of disable people, are vast. Beneficiaries often use a sequential set of support measures. Thus, the most common routes/sets of measures were defined.

This value refers to the sum of the costs incurred with an adult, who has enjoyed from the following measures:

1. Adult Education and Training Courses (5.048€)- Average expenditure associated with the promotion of training courses adapted to adult's skills. This cost represents the average cost of training per hour, based on direct costs in the year 2016.

Employment contract (5.685€)- Financial support granted to those who sign a permanent or fixed-term contract (equal to or greater than 12 months), with an unemployed person enrolled in IEFP. This cost represents the average cost of monthly subsidies granted during the year 2016.

More information on each of these measures, as well as on the methodology followed and results yielded, can be found on the [official website](#).
